Dental bonding can significantly improve your smile by filling in gaps, chips, or cracks in the teeth. It can also lengthen teeth that are too short or correct teeth that are misshapen. A small amount of resin will be added to the affected tooth or teeth to improve its proportions, colour and appearance. It is a quick and painless procedure that can be reversed if desired. Do you hate your silver fillings? From as a little as £65 <i>small</i> , £115 <i>medium</i> , up to £159 <i>large</i> We can change these fillings over to beautiful tooth colored fillings
